AHMED ABDERRAHMEN JATLAOUI

Personal details

- AHMED ABDERRAHMEN JATLAOUI
- jatlawiahmed56@gmail.com
- +216 23 211 729
- Sousse

Skills

- React.js
- Next.js
- TypeScript
- JavaScript
- HTML5
- CSS3
- Node.js
- Express.js
- REST API design
- MVC architecture
- Expo (React Native)
- SQL
- SQLite
- MongoDB
- Git
- GitHub
- UML/system design
- Agile/Scrum
- Adobe After Effects
- Canva
- Video editing

Languages

- Arabic ●●●●●
- English ●●●○○
- French ●●○○○

Hobbies

- Cycling
- Cooking
- Gaming
- Running
- Reading Tech Blogs

Profile

Computer Science graduate (BSc, 2026) and Full-Stack Developer experienced with React, Next.js, Node.js/Express, and Expo. Built a full-stack services marketplace with a shared API powering both web and mobile applications, covering database design, API development, and user interface implementation.

Extracurricular activities

Independent project
Freshly: Cleaning Services Marketplace App

- Designed and built a cleaning-services marketplace end to end, independently: a single Express API on SQLite powering two client applications.
- Built a Next.js web app for customers and admin use, and an Expo mobile app for service providers, both connected to the same backend.
- Handled the full build independently: database design, API architecture, and both frontend applications.

Independent project
Prowise: Product Guide & Maintenance Platform

- Built a full guide platform for product technology, use, and maintenance operations, organizing four content types: video, PDF, step-by-step guides, and repair information.
- Structured complex, varied information into a clear, usable system for end users.

Team project | Role: System & Interaction Designer
Spendora: Finance Mobile App, Sousse

- Designed the application's use case, sequence, and class diagrams, translating a product concept into a structured technical plan.
- Collaborated with developers to align system design with real implementation constraints.

Education

BSc in Computer Science — **Sep 2023 - Jun 2026**
ISITCOM, Hammam Sousse, Sousse

- Coursework and team projects covering software engineering, systems design (UML), databases, and web development.

Logistics Engineering, 1st year — **Sep 2022 - Jun 2023**
ISTLS, Sousse

- Completed a first year in Logistics Engineering before switching to Computer Science to align studies with a growing interest in software development.

Baccalaureate, Technical Sciences — **Sep 2021 - Jun 2022**
Othman Chatti High School, Msaken, Sousse

Employment

Full Stack Developer — **Feb 2026 - May 2026**
Accelerant SARL, Sousse

- Built and integrated RESTful APIs connecting front-end and back-end systems.
- Worked within an Agile/Scrum team through daily standups, sprint planning, and retrospectives, consistently meeting deadlines.
- Owned assigned technical problems from diagnosis through resolution.
- Developed and maintained web applications within a production codebase alongside other developers.

Achievements

- Hackathon 4 (Feb 2026): placed 4th, delivering a working project under time pressure as part of a team.
- Hackathon 3 (Feb 2025): placed 5th, improving placement year on year through better team coordination.

Certificates

NVIDIA: Computer Vision for Industrial Inspection

DataCamp: Image Processing in Python

DataCamp: Intermediate SQL

EPI Educational Group: Digital Marketing Workshop
